Profile <https://www.linkedin.com/in/rahul-kumardev>

**OBJECTIVE** Aspiring Python Developer with expertise in backend development. Django, and SQL. Passionate about building scalable web applications, and data-driven solutions. Seeking a role to apply my skills in real-world project and contribute to impactful software development.

**SKILLS**

• Python	• JavaScript	• SQLite
• Java	• HTMLS	• REST APIs
• C	• CSS	• Github
• C++	• Django	
• SQL	• OpenCV	

**EDUCATION** **ABES Engineering College**, Ghaziabad  
**Masters or Computer Applications** (2022-2024)

**Mahatma Jyotiba Phule Rohilkhand University**  
**Bachelor of Science**. Computer Science (2019-2022)

**PROJECT** **Dec 2023 - Feb 2024**

**Face Recognition:**

- Developed a **real-time face recognition system** to automate attendance making.
- Utilized OpenCV for image processing and **Face\_Recognition** for accurate detection.
- Implemented a deep **CNN-based architecture** to enhance recognition accuracy.
- Achieved **95% accuracy** in racial recognition under varying fighting conditions.

**FitSphere – Fitness Tracking Application** **Mar 2024 – June 2024**

- Developed a **web-based fitness tracking application** for personalized health monitoring.
- Designed **user authentication system** for secure login and profile management.
- Integrated **SQLite databases** to store user fitness data, workout logs and health progress.
- Built **RESTful APIs** to enable seamless data exchange between frontend and backend.
- Optimized backend service to ensure **efficient data handling area optimized performance times**.

**CERTIFICATIONS**

- Python Certification – Cisco (April 2023)
- JavaScript Certification – Cisco (May 2024)
- Django Certification – Cisco (May 2024)

**ACHIEVEMENTS**

- 5 Star in HackerRank in Python
- 5 Star in HackerRank in SQL
- 3 Star in HackerRank in Java
